GO_Biological_Process_2021
negative regulation of amyloid precursor protein biosynthetic process (GO:0042985)
regulation of respiratory gaseous exchange by nervous system process (GO:0002087)
P−type sodium transporter activity (GO:0008554)
internal protein amino acid acetylation (GO:0006475)
transmembrane receptor protein phosphatase activity (GO:0019198)
axo−dendritic transport (GO:0008088)
diaphragm development (GO:0060539)
regulation of cardioblast differentiation (GO:0051890)
ethanolamine−containing compound metabolic process (GO:0042439)
