

- Regulation of necroptosis
- Positive regulation of potassium ion transmembrane transport
- Positive regulation of potassium ion transport
- Regulation of nervous system development
- Cytosolic transport
- Negative regulation of immune effector process
- Negative regulation of neurogenesis
- Postsynaptic membrane organization
- Regulation of calcium ion transmembrane transporter activity
- Regulation of extrinsic apoptotic signaling via death domain receptors
- ATP generation from ADP
- Inositol phosphate metabolism
- Regulation of calcium ion transmembrane transport
- Regulation of amyloid precursor protein catabolism
- Regulation of amyloid-beta formation
- Clathrin-dependent endocytosis
- Membrane depolarization during action potential
- Negative regulation of GPCR protein signaling
- Regulation of dendrite development
- Regulation of neuron projection development
- Regulation of synaptic vesicle exocytosis
- Positive regulation of endocytosis
- Regulation of synaptic transmission, glutamatergic
- Negative regulation of cell projection organization
- Negative regulation of neuron projection development

- I-kappab kinase/NF-kappab signaling
- Regulation of ERBB signaling
- Regulation of DNA repair
- Vesicle-mediated transport between endosomal compartments
- Regulation of calcium ion transport into cytosol
- Detection of calcium ion
- Regulation of autophagy of mitochondrion
- Positive regulation of signaling
- Membrane depolarization
- Axon development
- Adenylate cyclase-inhibiting GPCR signaling
- Positive regulation of receptor activity
- Regulation of neuronal synaptic plasticity
- Negative regulation of calcium-mediated signaling
- Positive regulation of exocytosis
- Positive regulation of dendrite extension
- Positive regulation of neuron projection development
- Regulation of axon extension
- Regulation of axonogenesis
- Regulation of synapse organization
- Receptor localization to synapse
- Regulation of glutamate receptor signaling
- Regulation of neurotransmitter receptor activity
- Regulation of calcium ion-dependent exocytosis
- Synaptic vesicle recycling
- Vesicle-mediated transport in synapse
- Positive regulation of calcium-mediated signaling
- Positive regulation of synaptic transmission
- Synaptic vesicle endocytosis
- Neuron projection organization
